Functionality id	Functionality Name	Description	
101	Check website Link	website opens properly	
102	Check page Load	Page loads within 3 seconeds for Normal user	
103	Check SSL	Site loads with HTTP secure lock	
104	Check Browser Support	Site works on Crome,firefox,Edge	
105	Check Responsiveness	Layout adjustable for laptop,tablet,mobile	
106	Check Title	Page title is swag Labs	
		Login Page	
107	Check Login Form UI	The page should display username and password fields and login button are visible on the page	
108	Check Username field(standard user)	Username field accepts input correctly	
109	Check password field(standard user	Paasword field accepts masked input	
110	Check Login button(standard user)	Login button clickable	
111	Check valid login(standard user)	standard_user password is secret_sauce successfully navigates to inventory page	
112	Check invalid login(standard user)	wrong username/password-error message displayed	
113	Check Empty login(standard user)	Blank username/password - epic sadface:username and password are required	
114	Check username field(lockedoutuser)	username field accepts input correctly	
115	Check password field (lockedoutuser)	Paasword field accepts masked input	
116	Check login button(lockedoutusrer)	Login button clickable	
117	Check valid login(lockedoutuser)	Locked_out_user password is secret_sauce - error epic sadface:soory,this user has been locked out	
118	Check invalid login(lockedoutuseruser)	wrong username/password - error shown	
119	Check empty login(lockedoutuser)	Blank username/password - required field error shown	
120	Check Locked out user	Login attempts fails,user cannot access inventory page	
121	Check username field(problem user)	username input accepted	
122	Check password field(problem user)	password accepted masked properly	
123	Check login button(problemuser)	button clickable	
124	Check valid login(problemuser)	problem_user password is secret_sauce login successfully but product images broken/misaligned	
125	Check invalid login(problemuser)	wrong credentials error shown	
126	Check empty login(problemuser)	blank fields - required error shown	
127	Check problem user	defect observed images not loading properly on inventory page	
128	Check username field(performanceglitchuser)	input accepted	
129	Check password field(performanceglitchuser)	input accepted, masked	
130	Check login button(performanceglitchuser)	click works	
131	Check valid login(performanceglitchuser)	performance_glitch_user password is secret_sauce - login successful but very slow load time before inventory page appears	
132	Check invalid login(performanceglitchuser)	wrong input - error message	
133	Check empty login(performanceglitchuser)	Blank input - required error	
134	Check username field(erroruser)	input accepted	
135	Check password field(erroruser)	input accepted, masked	
136	Check login button(erroruser)	button works	
137	Check valid login(erroruser)	erroruser password is secret_sauce login works but checkout process broken/errors appear in cart	
138	Check invalid login(erroruser)	wrong input - error message shown	
139	Check empty login(visualuser)	Blank fields - required error shown	

140	Check username field(visualuser)	input accepted	
141	Check password field(visualuser)	input accepted, masked	
142	Check login button(visualuser)	button works	
143	Check valid login(visualuser)	visual_user password is secret_sauce - login successfully but ui misalignment/css visual bugs on inventory page	
144	Check invalid login(visualuser)	Wrong credentials error shown	
145	Check empty login(visualuser)	blank - required field error	:
	Inventory page		
	Header		
201	Check menu icon visibility(standard_user)	Menu icon is visible and clickable	
202	Check menu icon clickability(standard_user)	sidebar menu opens smoothly on click	
203	Verify menu options display(standard_user)	All options are displayed clearly and aligned properly	
204	Check All items link functionality(standard_user)	Page reloads and shows the list of all products	
205	Check About link functionality(standard_user)	About page opens successfully in a new tab	
206	Check logout link functionality(standard_user)	User is logged out successfully and login page is displayed	
207	Check resetappstate functionality(standard_user)	App data resets successfully to default	
208	Check sidebar close functionality(standard_user)	sidebar closes successfully and Esc key are working properly	
209	Check sidebar responsiveness(standard_user)	Sidebar is responsive and works properly across all devices	
210	Check fliter dropdown visibility(standard_user)	Dropdown is visible and aligned correctly	
211	Check fliter dropdown options(standard_user)	All four options are displayed	
212	Check filter functionality(standard_user)	Sorting works correctly for all options	
213	Check dropdown responsiveness(standard_user)	Dropdown remains accessible, position stable	
214	Check cart icon visiblity(standard_user)	Cart icon visible and properly aligned	
215	Check cart item count update(standard_user)	Count updates correctly when item added	
216	Check cart icon navigation(standard_user)	redirects successfully to cart page	
217	Check header alignement(standard_user)	Alignement is correct and spacing consistent	
218	Check header scroller behavior(standard_user)	Header stays visible, no displacement	
219	Check all header functionality(lockedout_user)	Login attempts fail system display error message: epic sadface:soory,this user has been lockedout	
220	Check menu icon visibility(problem_user)	Menu icon is visible and clickable	
221	Check menu icon clickability(problem_user)	sidebar menu opens smoothly on click	
222	Verify menu options display(problem_user)	All options are displayed clearly and aligned properly	
223	Check All items link functionality(problem_user)	Page reloads and shows the list of all products	
224	Check About link functionality(problem_user)	About page opens slowly,partial content only intermittent 404 not found error many images not showing	
225	Check logout link functionality(problem_user)	User is logged out successfully and login page is displayed	
226	Check resetappstate functionality(problem_user)	App data resets successfully to default	
227	Check sidebar close functionality(problem_user)	sidebar closes successfully and Esc key are working properly	
228	Check sidebar responsiveness(problem_user)	Sidebar is responsive and works properly across all devices	
229	Check fliter dropdown visibility(problem_user)	Dropdown is visible and aligned is not correctly	
230	Check fliter dropdown options(problem_user)	All four options are displayed	
231	Check filter functionality(problem_user)	Sorting works not correctly for all options	
232	Check dropdown responsiveness(problem_user)	Dropdown remains accessible, position stable	
233	Check cart icon visiblity(problem_user)	Cart icon visible and properly not aligned	
234	Check cart item count update(problem_user)	Count updates correctly when item added	

235	Check cart icon navigation(problem_user)	redirects successfully to cart page
236	Check header alignement(problem_user)	Alignement is correct and spacing consistent
237	Check header scroller behavior(problem_user)	Header stays visible, no displacement
238	Check menu icon visibility(performance_glitch_user)	Menu icon is visible and clickable but misaligned
239	Check menu icon clickability(performance_glitch_user)	sidebar menu opens but sometimes responds slowly
240	Verify menu options display(performance_glitch_user)	menu options take several seconds to appear after clicking the menu icon
241	Check All items link functionality(performance_glitch_user)	sometimes, when clicking the all items link, the user is redirected to the logout page instead of the inventory page not properly work
242	Check About link functionality(performance_glitch_user)	clicking the about link sometimes delays navigation or does not load the about page immediately
243	Check logout functionality(performance_glitch_user)	User is logged out successfully and login page is displayed
244	Check resetappstate functionality(performance_glitch_user)	App data resets successfully to default
245	Check sidebar close functionality(performance_glitch_user)	sidebar closes successfully and Esc key are working properly
246	Check sidebar responsiveness(performance_glitch_user)	the sidebar loads slowly or does not adjustable correctly when resizing the window
247	Check fliter dropdown visibility(performance_glitch_user)	filter dropdown appears partially hidden or takes time to display after clicking
248	Check fliter dropdown options(performance_glitch_user)	All four options are displayed
249	Check filter functionality(performance_glitch_user)	selecting a filter option delays sorting or does not apply correctly immediately
250	Check dropdown responsiveness(performance_glitch_user)	dropdown responsed slowly and may lag when selecting options
251	Check cart icon visiblity(performance_glitch_user)	the cart icon loads slowly or appears partially hidden
252	Check cart item count update(performance_glitch_user)	Count updates correctly when item added
253	Check cart icon navigation(performance_glitch_user)	clicking the cart icon delays navigation or sometimes does not open the cart page immediately
254	Check header alignement(performance_glitch_user)	header elements are misaligned icon and dropdown may appear offset
255	Check header scroller behavior(performance_glitch_user)	header may flicker, lag, or not stay fixed during scrolling
256	Check menu icon visibility(error_user)	Menu icon is visible and clickable
257	Check menu icon clickability(error_user)	sidebar menu opens smoothly on click
258	Verify menu options display(error_user)	All options are displayed clearly and aligned properly
259	Check All items link functionality(error_user)	Page reloads and shows the list of all products
260	Check About link functionality(error_user)	clicking the about link navigate successfully to the about page without any error
261	Check logout link functionality(error_user)	User is logged out successfully and login page is displayed
262	Check resetappstate functionality(error_user)	App data resets successfully to default
263	Check sidebar close functionality(error_user)	sidebar closes successfully and Esc key are working properly
264	Check sidebar responsiveness(error_user)	Sidebar opens with layout issues, content overlaps, or does not resize properly
265	Check fliter dropdown visibility(error_user)	Dropdown is visible and aligned correctly
266	Check fliter dropdown options(error_user)	All four options are displayed
267	Check filter functionality(error_user)	Sorting works not correctly for all options error display and after sometimes until the page is refreshed only after refresh the sorting applies
268	Check dropdown responsiveness(error_user)	dropdown lags, freezes or does not expand properly when clicked
269	Check cart icon visiblity(error_user)	Cart icon visible but properly not aligned
270	Check cart item count update(error_user)	Count updates correctly when item added
271	Check cart icon navigation(error_user)	clicking the cart icon sometimes redirected to the login page or fails to open the cart page properly
272	Check header alignement(error_user)	Alignement is correct and spacing consistent
273	Check header scroller behavior(error_user)	Header stays visible, no displacement
274	Check menu icon visibility(visual_user)	The menu icon is visible but slightly fader or unclear making it less noticeable not clearly visible
275	Check menu icon clickability(visual_user)	The menu icon is clickable but feedback is subtle, making it unclear if the menu opened

276	Verify menu options display(visual_user)	All options are displayed clearly and aligned properly
277	Check All items link functionality(visual_user)	Clicking the all items link sometimes redirects to the logout page instead of inventory
278	Check About link functionality(visual_user)	clicking the about link is functional, but text or icon visibility is poor making it hard to identify the link
279	Check logout link functionality(visual_user)	User is logged out successfully and login page is displayed
280	Check resetappstate functionality(visual_user)	App data resets successfully to default
281	Check sidebar close functionality(visual_user)	sidebar closes successfully and Esc key are working properly
282	Check sidebar responsiveness(visual_user)	The sidebar loads corrrectly but visual alignment and spacing are slightly off, affecting visibility
283	Check fliter dropdown visibility(visual_user)	the filter dropdown is visible but low contrast or slightly hard to read, affecting usability
284	Check fliter dropdown options(visual_user)	some optioms may be misaligned or partially hidden in the dropdown
285	Check filter functionality(visual_user)	selecting a filter works but visual feedback is subtle, making it unclear which filter is applied
286	Check dropdown responsiveness(visual_user)	The dropdown opens slightly delayed or animations is subtle, making it less noticeable
287	Check cart icon visiblity(visual_user)	The cart icon is visible but low contrast or slightly unclear, making it less noticeable and not proper aligned
288	Check cart item count update(visual_user)	Count updates correctly when item added
289	Check cart icon navigation(visual_user)	the cart icon is clickable and functional, but visual feedback is subtle, making it less obvious that navigation occurred
290	Check header alignement(visual_user)	the header elements are visible but slightly misaligned or unevenly spaced, affecting visual clarity
291	Check header scroller behavior(visual_user)	the header scrolls smoothly but visual flicker or subtle lag can be noticed, affecting preception
Products page		
292	Check page title(standard_user)	title shows products
293	Check product list(standard_user)	All 6 products display correctly
294	Check product images(standard_user)	images visible and clickable and loads correctly
295	Check product names(standard_user)	all names are displayed
296	Check product description(standard_user)	description visible properly
297	Check price format(standard_user)	price visible with $ symbol
298	Check add to cart(standard_user)	product added to cart
299	Check remove from cart(standard_user)	item removed successfully
300	Check product details redirect(standard_user)	clicking product opens detail page sometimes clicking a product redirects to the logout page
301	Check product Navigation(standard_user)	Clicking on product opens product details page correctly
302	Check responsiveness(standard_user)	page adjustable properly on laptop, mobile, tablet
303	Check all header functionality(lockedout_user)	Locked_out_user password is secret_sauce - error epic sadface:soory,this user has been locked out
304	Check page title(performance_glitch_user)	title shows products
305	Check product images(performance_glitch_user)	All 6 products display correctly product images load slowly, sometimes partially,or ficker when scrooling or clicking
306	Check product names(performance_glitch_user)	images visible and clickable and loads correctly
308	Check product description(performance_glitch_user)	description visible properly
309	Check price format(performance_glitch_user)	price visible with $ symbol
310	Check add to cart(performance_glitch_user)	product added to cart
311	Check remove from cart(performance_glitch_user)	item removed successfully
312	Check product details redirect(performance_glitch_user)	clicking product opens detail page sometimes clicking a product redirects to the logout page
313	Check product Navigation(performance_glitch_user)	navigation from inventory to product details page lags or frrezes for a few seconds before loading completely
314	Check responsiveness(performance_glitch_user)	responsiveness is dealyed realign slowly when resizing or switching between pages
315	Check page title(problem_user)	title shows products
316	Check product list(problem_user)	product list loads slowly or some items don't appear without refresh
317	Check product images(problem_user))	images take time to load or appear partially misaligned

318	Check product names(problem_user))	sometimes product names don't load or overlap with price text	
319	Check product description(problem_user))	desscription sometimes missing or cut off for a few products	
320	Check price format(problem_user))	prices show incoorect format or missing currrently symbol occasionally	
321	Check add to cart(problem_user)	for some products, button takes 2-3 seconds to respond or fails to add item	
322	Check remove from cart(problem_user)	sometimes cart count does not update instantly or remains same after removing	
323	Check product details redirect(problem_user)	occasionally redirects to logout page instead of product page	
324	Check product Navigation(problem_user)	sometimes takes longer to load or shows blank screen for a moment	
325	Check responsiveness(problem_user)	elements misalign or overlap when resizing the browser	
326	Check page title(error_user)	title shows products	
327	Check product list(error_user)	product list fails to load completetly only few products appear until page is refreshed	
328	Check product images(error_user)	some images do not load at all or appear as broken links	
329	Check product names(error_user)	product names missing or incoorect for few products	
330	Check product description(error_user)	description not visible or appear cut off mid text	
331	Check price format(error_user)	prices missing currency symbol or display random characters	
332	Check add to cart(error_user)	add to cart button does not responed on first click or adds wrong product	
333	Check remove from cart(error_user)	after clicking remove cart item stays visible unti page refresh	
334	Check product details redirect(error_user)	for error_user redirect often fails or opens blank page	
335	Check product Navigation(error_user)	Navigation lags or sometimes redirects to login/logout page	
336	Check responsiveness(error_user)	elements overlap or shift incoorectly when resizing the window	
337	Check page title(visual_user)	title shows products	
338	Check product list(visual_user)	product list appears misaligned or unevenly spaced across the grid layout	
339	Check product images(visual_user)	some images look stretched or slightly blurred in grid view	
340	Check product names(visual_user)	products name overlap with price text or get cut off visually in a few items

414	Check remove cart(problem_user)	remove button is visible, but after clicking the item does not get removed immediately sometimes page refresh is required	
415	Check back to products(problem_user)	redirection works but sometimes loads with layout glitche or slow response	
416	Check product image(performance_glitch_user)	images loads slowly sometimes partially visible or blurry for 4-5 seconds	
417	Check product title(performance_glitch_user)	product title loads after 4-6 seconds delay, visible lag before rendering sometimes shift position when the reset of the content loads	
418	Check product description(performance_glitch_user)	text appears after delay, layout shifts slightly while loading	
419	Check price(performance_glitch_user)	price field appears late slight flickering during load	
420	Check add to cart(performance_glitch_user)	button click before any feedback or cart update; sometimes requires double-click	
421	Check remove cart(performance_glitch_user)	remove button responds after 3-5 seconds delay;user feels lag before the product disappears	
422	Check back to products(performance_glitch_user)	navigation is delayed and jerky; sometimes requires page reload to go back	
423	Check product image(error_user)	product images shows incorrect or missing picture, sometimes displays broken link icon	
424	Check product title(error_user)	title occasionally missing or displays wrong product name	
425	Check product description(error_user)	description text is misaligned and sometimes does not load at all	
426	Check price(error_user)	price field shows undefinend or missing values intermittently	
427	Check add to cart(error_user)	add to cart button not responding or triggers error message	
428	Check remove cart(eror_user)	click action not responding or gives error message	
429	Check back to products(error_user)	sometimes redirected to error page or blank scrren	
430	Check product image(visual_user)	some images blurred, not properly aligned, or take extra load time	
431	Check product title(visual_user)	title text overlapes with background or cut off in smaller screens	
432	Check product description(visual_user)	description text is misaligned and sometimes does not load at all	
433	Check price(visual_user)	price fields shows undefined or missing values intermittently	
434	Check add to cart(visual_user)	add to cart button not responding or triggers error message	
435	Check remove cart(visual_user)	click action not responding or gives error message	
436	Check back to products(visual_user)	sometimes redirects to error page or blank scrren	
Cart page			
501	Check Cart icon visibility(standard_user)	cart icone is visible and clickable	
502	Check cart item display(standard_user)	All product in cart display correctly with name,description,quentity, and price	
503	Check remove from cart(standard_user)	remove button are visible and clickable, products removes correctly,but cart count/total may need refreshed sometimes	
504	Check quentity display(standard_user)	Quntitty is visible and correctly amd correct set 1 for each product	
505	Check price display(standard_user)	prices for each product display correctly	
506	Check continue shopping button(standard_user)	continue shooping button works correctly, redirects to inventory	
507	Checkout button(standard_user)	Checkout button visible and functional	
508	Check cart responsiveness(standard_user)	Elements aligned correctly on laptop, layout visually consistent	
509	Check Locked out user	Login attempts fails,user cannot access inventory page	
510	Check Cart icon visibility(problem_user)	cart icone is visible and clickable	
511	Check cart item display(problem_user)	All product in cart display correctly with name,description,quentity, and price	
512	Check remove from cart(problem_user)	remove button are visible and clickable, products removes correctly	
513	Check quentity display(problem_user)	Quntitty is visible and correctly amd correct set 1 for each product	
514	Check price display(problem_user)	prices for each product display correctly	

515	Check continue shopping button(problem_user)	continue shooping button works correctly, redirects to inventory	
516	Checkout button(problem_user)	Checkout button visible and functional	
517	Check cart responsiveness(problem_user)	Elements aligned correctly on laptop, layout visually consistent	
518	Check Cart icon visibility(performance_glitch_user)	cart icone is visible and clickable	
519	Check cart item display(performance_glitch_user)	All product in cart display correctly with name,description,quentity, and price	
520	Check remove from cart(performance_glitch_user)	remove button are visible and clickable, products removes correctly	
521	Check quentity display(performance_glitch_user)	Quntitty is visible and correctly amd correct set 1 for each product	
522	Check price display(performance_glitch_user)	prices for each product display correctly	
523	Check continue shopping button(performance_glitch_user)	continue shooping button not works	
524	Checkout button(performance_glitch_user)	Checkout button visible and functional	
525	Check Cart icon visibility(error_user)	cart icone is visible and clickable	
526	Check cart item display(error_user)	All product in cart display correctly with name,description,quentity, and price	
527	Check remove from cart(error_user)	remove button are visible and clickable, products removes correctly	
528	Check quentity display(error_user)	Quntitty is visible and correctly amd correct set 1 for each product	
529	Check price display(error_user)	prices for each product display correctly	
530	Check continue shopping button(error_user)	continue shooping button works correctly, redirects to inventory	
531	Checkout button(error_user)	Checkout button visible and functional	
532	Check cart responsiveness(error_user)	cart layout alignment is distorted text and buttons overlap or shift when resizing the window	
533	Check Cart icon visibility(visual_user)	cart icone is not proper visible and clickable alignment not proper	
534	Check cart item display(visual_user)	All product in cart display correctly with name,description,quentity, and price	
535	Check remove from cart(visual_user)	remove button are visible and clickable, products removes correctly	
536	Check quentity display(visual_user)	Quntitty is visible and correctly amd correct set 1 for each product	
537	Check price display(visual_user)	prices for each product display correctly	
538	Check continue shopping button(visual_user)	continue shooping button works correctly, redirects to inventory	
539	Checkout button(visual_user)	checkout button is visible but misaligned and displayed at top ui alignment defect	
540	Check cart responsiveness(visual_user)	cart page appears slightly misalignend product description and price sections shift slightly when resizing the scrren	
	Checkout step one page		
601	Check firstname field(standard_user)	field accepts text properly,but no validation for special characters numbers	
602	Check lastname field(standard_user)	field accepts text correctly,but blank input not restricted,allows empty submit	
603	Check Zip/postal code(standard_user)	Accepts numbers but no validation message for alphabates or special characters	
604	Check continue button(standard_user)	if any field empty,it shows error message,else navigation correctly	
605	Check cancle button(standard_user)	works properly redirects to cart page and clears previous data	
606	Check error messages(standard_user)	error message appears,but alignment not proper,and message fickers on reload	
607	Check Locked out user	Login attempts fails,user cannot access inventory page	
608	Check firstname field(problem_user)	field works but sometimes auto-fills wrong text or lags during typing	
609	Check lastname field(problem_user)	user is unable to type anything input box not editable field appears blank,but text overlapes or disappears while typing	
610	Check Zip/postal code(problem_user)	Accepts numbers but no validation message for alphabates or special characters	
611	Check continue button(problem_user)	button is clikable but no action performed	
612	Check cancle button(problem_user)	works properly redirects to cart page and clears previous data	
613	Check error messages(problem_user)	error message appears correctly	
614	Check firstname field(performance_glitch_user)	field accepts input but shows delay(1-2 sec per charcter) before displaying text	

615	Check lastname field(performance_glitch_user)	text input is delayed,occasionally skips a letter when typed fast page temporarily freezes during typing	
616	Check Zip/postal code(performance_glitch_user)	Accepts numbers but no validation message for alphabates or special characters	
617	Check continue button(performance_glitch_user)	button is clikable but takes 3-5 seconds to responed sometimes requires multiple clicks before navigation starts	
618	Check cancle button(performance_glitch_user)	works properly redirects to cart page and clears previous data	
619	Check error messages(performance_glitch_user)	error message appears correctly	
620	Check firstname field(error_user)	field works but sometimes auto-fills wrong text or lags during typing	
621	Check lastname field(error_user)	user is unable to type anything input box not editable field appears	
622	Check Zip/postal code(error_user)	Accepts numbers but no validation message for alphabates or special characters	
623	Check continue button(error_user)	on clicking the continue button the action proceeds even when the last name fields is left empty there is no validation for the continue button	
624	Check cancle button(error_user)	works properly redirects to cart page and clears previous data	
625	Check error messages(error_user)	error message appears correctly	
626	Check firstname field(visual_user)	field accepts input but shows delay(1-2 sec per charcter) before displaying text
